## Description

Have you ever wished you could pick up your whole house and move it to a secluded forest; to get away from everything and everyone for a while? Have you imagined your peaceful place having a huge bed, a nice warm fireplace and no line for the bathroom? Or- an apartment on wheels so you can take all your friends & family on the cross country retirement road trip that you've planned for years? This is the RV of your dreams! The light grey interior feels fresh and modern, with one touch screen to monitor and control the entire coach. There are huge windows to let in natural light, and 2 air conditioners to keep you breezy in the summer, plus residential vinyl floors -no carpet! So everything is easy to keep clean, even if you have little ones or pets. With 7 seatbelts and places to sleep (king bed, full jack knife sofa, full retractable overhead cockpit bunk, and a dinette for a small person) you can have a party, or enjoy your privacy in a spacious living space. Everything is accessible and easy to get to, even while in road mode. This makes boondocking and parking lot sleepovers so convenient. Another big factor -There are 2 BATHROOMS! A master bath in the bedroom, and a 1/2 bath with a macerating system. There is also a closet prepared for washer/dryer hookups, an electric fireplace, and numerous comfortable seating options to make you happy to be at home, on the road.
