2021 Van Conversion Mercedes-Benz Sprinter

\$138,000

Description

Stock #369183 - Great condition with sleeping room for 4, low miles, must see! This 2021 van conversion is ready to go off the grid and into small campsites anywhere. Upgrades to this van have not been scrimped on. It has three belted seats in front. It has a dining table that will sit four to six, which converts into a queen bed that will sleep 2. The center section of the bench pulls out to create a walk-through with a lagun swivel table and storage inside benches. There is also a Happijac elevator bed lift above the dining area that will sleep 2. The van itself has lots of upgrades... Sumo springs, all-terrain tires, heated seats, power mirrors, comfort package, driver convenience package, rear camera, cruise control, blind spot assist, lane keep assist, trailer hitch, mud flaps, keyless start, lock/unlock from smartphone. All of these upgrades make traveling long distances more convenient! For privacy, the front window has ceramic tint and limo tint on the front side windows. It also has a large screened window on the sliding passenger door and a bunk sliding window above the kitchen for airflow and light. The exterior of this van has been equipped with great off-road gear, a Thule awning, an OwlVans Sherpa flexible outdoor storage plate on the passenger door, a pack mount fuel tank, an OwlVans gearbox, an OwlVans door mount spare tire rack, and newer all-terrain tires. This conversion will keep the van well-insulated with the Kilmat sound deadener and the Havelock wool insulation. Thermal breaks ensure the hot or cold doesn't pass through to the interior. It also has room-darkening "linen" curtains for the front of the cab and passenger sliding door. This van conversion is an energy-efficient Off Grid Power System. All of the interior components are low voltage, which removes the (inverting/converting) burden from the system, so there is zero power waste. It has 270ah LifePo4 Battleborn battery, a Victron 30 Amp DC-DC charger, a 100/50 Victron Solar Charge Controller, a Victron 1000 amp Power In, Blue Sea disconnect switches (all installed inside the base of the passenger seat), Blue Sea waterproof DC breakers on the side of the passenger seat, and 325 watts monocrystalline solar panels that are bolted into OEM roof rails. Live in comfort with the appliances and the plumbing for this van conversion are... a 12v Dometic air conditioner, a 12v Truckfridge refrigerator with custom front, a 12v petrol Webasto air heater, a 12v water pump, a brushed gold faucet with built-in soap dispenser, a deep stainless-steel sink, a brushed gold rear shower, a 5-gallon Dometic cassette toilet, a 21-gallon fresh tank under chassis in spare tire location, 10-gallon grey tank with a motorized dump, and a powerful 12v water pump. Get ready for adventure! We are looking for people all over the country who share our love for boats/RVs.
