## Description

2024 Airstream Flying Cloud 27FB, Airstream Flying Cloud travel trailer 27FB highlights: Rear Dinette Side Lounging Area Walk-Around Bed Separated Bathroom Panoramic Windows ? Whether you stay at a campground or an RV park, you will love relaxing inside on the comfortable furniture and the pillowtop memory foam mattress while gazing out all the windows and enjoying the natural lighting. The front master bedroom offers two nightstands for perfect storage for small items and books, and the counters are perfect for displaying accessories and charging devices, while the dinette and lounging area can easily be converted into sleeping space when you have guests stay the night. The toilet and vanity are separate from the shower allowing two people to use the facilities at once. And the cook will have a spacious galley to make meals using the stove/microwave area with square sink , and the refrigerator can hold the leftovers that is opposite the stove. And you might even like to add a few options such as a front bunk over the queen bed, a rear hatch and/or a window awning package. ? With each Flying Cloud travel trailer by Airstream, there are two axles, and each is built for ease of towing, plus there is a rear-view camera to make reversing and parking easier, and stainless steel front stone guards to protect the lower segments from road debris. The iconic Airstream design is created outside and inside by the semi-monocoque aluminum superstructure, the temperature reducing one-piece white aluminum roof, the panoramic front windows, and the stylish aluminum wheels. And almost every interior wall surface is covered in aluminum , giving the living space a clean and sophisticated appearance, even the appliances and sinks are stainless.??
