Description

I purchased this travel trailer new in 2020 and opted for an all in one washer and dryer, an additional 15k BTU AC unit in the bedroom, a powered hitch and a Furion backup camera system. It's equipped with powered scissor jack stabilizers and electric brakes. It has three slide outs, one in the kitchen, one in the living room and the other in the master bedroom. This affords you the ability to have a king size bed and a very large closet to hang your clothes in. The couch converts into a queen size pullout bed to sleep a total of 4 adults comfortably. It's 40 feet long and weighs 8,900lbs dry and my half to Nissan Titan pulled it with no problems. It has a dining room table with teal chairs that seats four and the living room has two captain recliners. It comes with a 50" LCD TV equipped with a Vizio wireless surround sound system. The underbelly is heated to keep the 6gallon propane electric hot water heater from freezing as well as the pipes. Both the heat and AC are duct.
