Description

Description 2024 KZ Connect C312RE, KZ Connect travel trailer C312RE highlights: Full Bath Theater Seating Pass-Through Storage Flip-Up Solid Steps Head for the hills, lake, or woods in this spacious travel trailer. Once your gear is unloaded from the pass-through storage, set up the 19' power awning with LED lights and relax with a cold drink. Once you head inside you can make lunch on the three burner range and dine at the dinette that includes two chairs and bench seating. The rear living area includes a rear entertainment center with an LED TV and a 34" fireplace for a cozy atmosphere. There is also theater seating here and two 70" sofas within the dual opposing slides where your guests can sleep. And you will enjoy the front private bedroom with a king bed all to yourselves! The KZ Connect travel trailer comes with an RV Airflow System which optimizes the airflow for your air conditioner by increasing the airflow by an average of 40%. This improves performance, speeds up cooling times, and reduces noise in your trailer. Some of the other helpful features found on the Connect are the heated, insulated, and enclosed underbelly, the exterior docking station, the fiberglass front cap with front windshield, the 82" interior ceiling height, and the protective front diamond plate. There are some useful technological features, like the two LED motion-sensor lights, the HDMI and USB charge, and the multi-media entertainment system with a DVD player. The KZ Engage is powered by OneControl, and it monitors battery levels and controls slide rooms, the leveling system, the awning, inside/outside lighting, and the TPMS prep. Sleeps 6 Slideouts 2
